

Our goal is to establish an end-to-end supply system based on partnership with efficient, high-quality suppliers. The requirements we set are challenging. In working with you, we want to set standards for efficiency, reliability and quality. In return, we offer our partners a long-standing business relationship based on trust, with good growth prospects!

Would you like to become a supplier and partner of PAV? Then contact us or apply online and by email after completing the supplier questionnaire. We look forward to hearing from you!

Your PAV Procurement Team
